

# WATER USED - WAUKESHA PUMPS<sup>®</sup>

2 gpm PER PUMP

Based on 70 day season

PLEASE CONSIDER THESE POINTS:

-ARE YOU LOOKING FOR WAYS TO FIND EXTRA WATER?

-ARE YOU LOOKING FOR WAYS TO REDUCE YOUR SEWER BILL?

The ZM Technologies single mechanical seals eliminate the use of the outer seal component. Our seals will reduce your maintenance costs, improve ease of seal installation, and are less expensive than chrome-oxide seals.

Not to mention longer seal life than chrome-oxide ..... GUARANTEED

ZM Technologies designs and engineers seals for sanitary process applications. The ZMT engineered seal is not a duplicate of the O.E.M. design, but an improved design for longer seal life.

ZM Technologies also engineers seals for other sanitary pumps like Fristam<sup>®</sup> and Tri-Clover<sup>®</sup> pumps.

If interested please contact, ZM Technologies Ph: 209-547-1965, FAX: 209-464-8140
